Cisco Networking Essentials
Requirements Gathering
Systems Analysis/Design
DevOps
CI/CD
UX Design
Time Management

EDUACATION

Bow Valley College | 2020
Software Development Diploma | 3.6 GPA

PROJECTS

Barhoppers
Full stack developer for a bar/restaurant special comparison and filtering web app, with lite social media features. Completed with React.js and CouchDB through Cloudant. Hosted on Netlify.

Appointment Booking for BVC's Learner Services
Led a five person team in creating a appointment booking web app, complete with separate dashboards for admins and employees. Implemented agile methodologies over a several month period, while directing workflow and sprints. Worked on the full stack over the course of the project.
